MISSION 4 Challenge 4

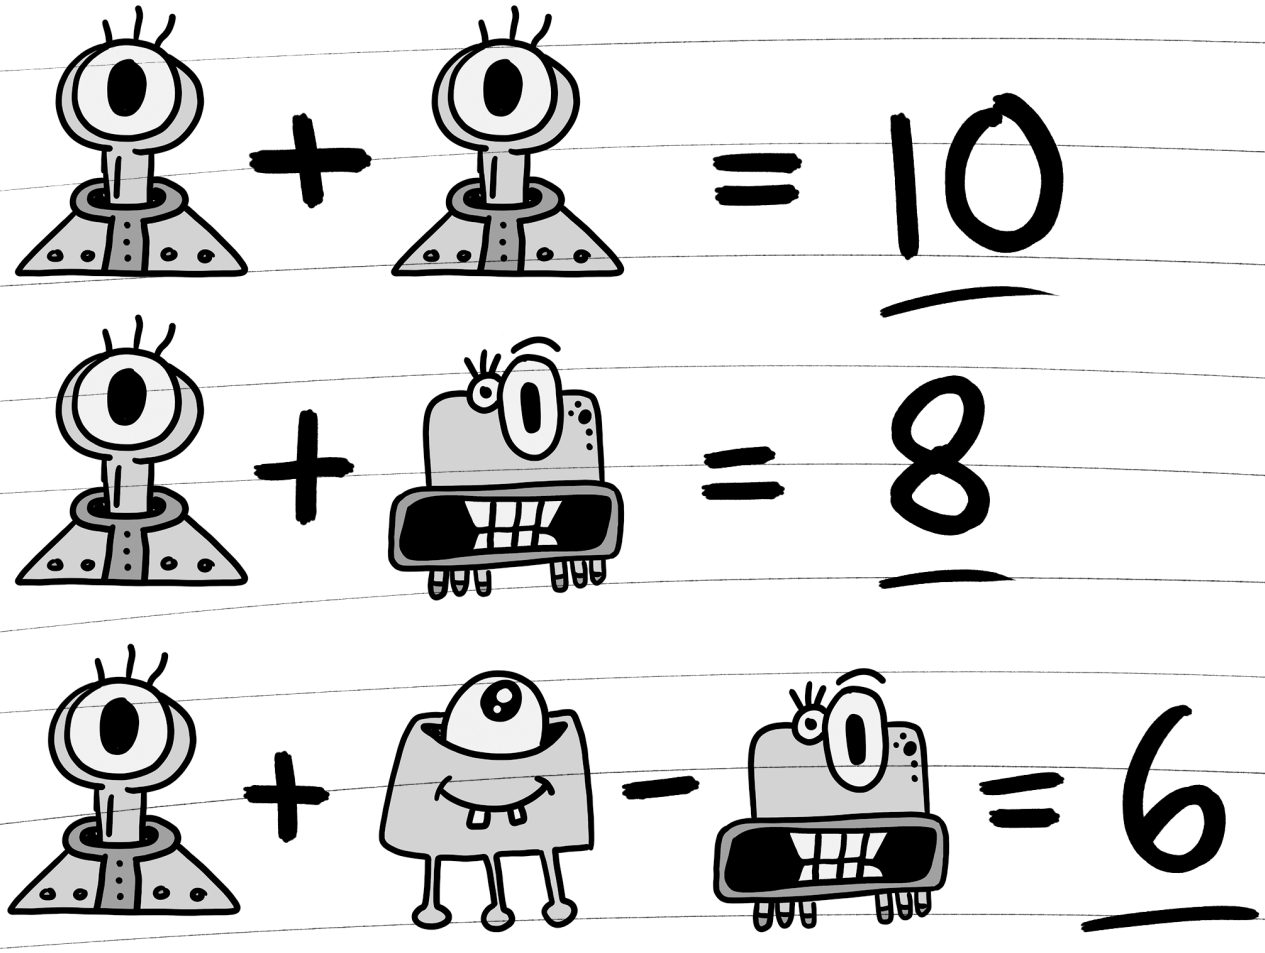

How much can SUM-IX lift today? Circle the row where the weights add up to exactly 100 kg!!

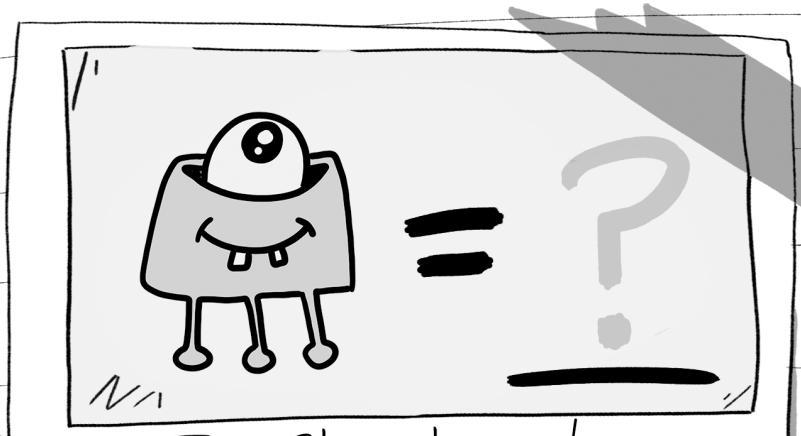

MISSION 4 Challenge 2

Chompy's value is hidden from the crew... Solve each creature equation to uncover the clue!

Don't tell SUM-IX... I counted on my fingers.

Every Chompy has a value... I still have no idea why they use creatures instead of numbers.

MISSION 10 Challenge 4

Our giant telescope makes the galaxy glow... Find each object; write its grid coordinate below!
